Diagram illustrating the sequence of boxes for the first 10 rows:

- Row 1: 10 boxes
- Row 2: 20 boxes
- Row 3: 30 boxes
- Row 4: 40 boxes
- Row 5: 50 boxes
- Row 6: 60 boxes
- Row 7: 70 boxes
- Row 8: 80 boxes
- Row 9: 90 boxes
- Row 10: 100 boxes

A double quote (") is placed below the eighth row.

Figure 1 shows a schematic diagram of a 1D lattice chain. The top chain is labeled '1' and the bottom chain is labeled '2'. Both chains consist of 20 sites, represented by small squares. The sites are numbered 1 to 20 from left to right. Horizontal double arrows between sites in each chain represent a hopping parameter t . Vertical double arrows between corresponding sites in the two chains represent an inter-chain hopping parameter t_{\perp} .

A diagram illustrating a sequence of four rows of rectangular blocks. The first row contains 25 blocks, the second row contains 30 blocks, the third row contains 35 blocks, and the fourth row contains 10 blocks. A double quote symbol is placed to the right of the fourth row.
